

ASSAULT PROFESSIONAL SERIES

MADE IN BRITAIN

HUMBER

HIGH PERFORMANCE RIBS

ASSAULT PROFESSIONAL SERIES

Cost-effective

The Assault model range is our most competitively priced making them perfect to meet your potential budget constraints. The Assault series is a faultless choice for those looking at the smaller end of the size scale. Not only that but you will save money on fuel consumption due to the hull performance. An all-round money saver.

High Strength

All of our boats are built to a commercial strength and this includes the Assault series. Widely used for all applications, the Assault offers fast responsive steering in rough sea states and is used by countless rescue and sailing organisations.

Make it your own

With numerous colour options and additional features. Our expert team will make sure that you have the Assault that you require. So, why not customise it to give it the look and functionality that you need.

Easy to store and launch

The Assault is easy to launch, can be towed by your average car and fits in most garages making it perfect for those with limited storage facilities. The Assault range is also a lower weight than the majority of our other models.

Tried and Tested Hull

Our Deep V hull design is unrivalled which in turn offers a ride like no other. Come for a test drive and compare it to others on the market. You'll be pleasantly surprised with what we have to offer. There's a reason that our boats are seen as high performance ribs and that partially comes down to the hull design.

A boat for all experience ranges

The hull design of the boat is very forgiving and will make up for mistakes made by the driver. Easy to navigate and control, it doesn't matter if you're a newbie or a seasoned veteran of the sea, the Assault is user friendly and will still overcome any obstacle.

Test Drive and Advice

Contact your local Humber dealer for more information and/or arrange a test drive. We want to make you feel at ease and want you to see that we can walk the walk! Start your Humber rib adventure here.

ASSAULT PROFESSIONAL SERIES

The highly popular Assault Series designed with our performance deep 'V' hull is one of a kind, producing outstanding acceleration and handling characteristics. With large buoyancy tubes offering maximum safety and stability, the Assault series is perfect for rescue organisations and light professional work. Towable by your average car due to its high strength/low weight build and also easy to store, there's never been a more efficiently designed rib!
